

Our Mission

Working with private businesses and investors, DFC finances solutions to the most critical challenges facing the developing world today, from climate change to COVID-19, energy poverty, and food insecurity. DFC supports investments in projects such as building hospitals, constructing power plants, bolstering vaccine manufacturing capacity, and expanding access to microfinance lending.

DFC is committed to investing in low-income countries and in projects that support marginalized populations including women, indigenous communities, refugees, and other displaced people.

Project Eligibility

Questions to consider when assessing a project's potential for DFC financing:

- Will my project meaningfully involve the private sector?
- Will my project uphold high social and environmental standards?
- Will my project deliver a meaningful positive impact to the host country?
- Is DFC open in my country of interest?
- Does my project fall within a prohibited sector?
